

## MISSION

Comprehensive Rehabilitation Consultants (CRC) will assist in securing quality services and resources to maximize the individual's optimal recovery and maintenance. CRC provides experience, expertise, and a multidisciplinary approach that includes the family, to ensure a personalized "Plan of Care." We believe by providing support and sharing our knowledge, the individual will receive the best possible care in the most effective manner.

### Pediatric Case Management

Client: 10 year old born with a developmental disability and is severely disabled.

Plan: Determine all medical care, therapies, home health care, equipment, home modifications, utilization of insurance benefits, after school and community related resources have been exhausted. Implement plan and follow with bi-monthly review of the individual's status and report to payor source.

Goals: Network with educational, human resources and governmental agencies to ensure maximum services are in place.
